

GETTING STARTED: EFS Mobile Driver SourceSM

EFS Mobile Driver SourceSM is the source that allows you convenient access to your EFS card management functions while on the go. This app allows you to manage your cards anytime and anywhere from your mobile device. This convenient, secure mobile app provides unprecedented EFS card access and control.

EFS Mobile Driver SourceSM users can:

- Get real-time card balances
- Check the card load history
- Manage your EFS SmartFundsSM
- Find fuel locations

Download the app from the Apple App Store or Google Play. While the app is free for the public to download, users must be a current EFS customer with a valid and active EFS card number and PIN in order to use this app.

You must also log in to eManager before you can begin using this app.

*On the road and on-the-go,
EFS keeps you moving*

Searching Fuel Locations

Find fuel stops using the map view, or by entering your location

The Quickest Route to Fuel Cost Savings

EFS Mobile Driver SourceSM can help you quickly navigate towards the nearest, approved fuel location based on your location.

➤ Automatically Find Nearest Locations

When you select **Find Nearest Locations**, you are automatically taken to the U.S. map where the nearest fuel locations, based on the current location of the mobile device (default search method) will be displayed. **NOTE: the number of locations displayed in the search results will reflect the "preferences" set for radius and miles/kilometers.**

You can press any "pin" on the map to display the location name, nearest exit, and fuel price (if available).

By pressing on the blue arrow, you are taken to a screen with more details on the location, including the ability to call the location directly or get instant driving directions.

➤ Find Locations by Highway

To find a location along a specific highway, simply search alphabetically, by Interstate/Highway, then restrict your search to specific states (if desired) and press "Map" to display results.

Providing Mobile Solutions for the Transportation Industry.

Put the power of EFS in your hand, with our mobile application for drivers.

Real-Time Card Balances

View available funds on your card from any location and toggle between "Fleet" and "SmartFunds" selections

Get Card Balance

Selecting **Get Card Balance** allows you to view the available funds on your card. You can toggle between the "Fleet" and "SmartFunds" side of the card (if applicable) Pressing "Get Balance" will display the available funds on the selected side of the card.

Pull on-the-go reports and request reports from specific date ranges

Cash Load Report

Selecting **Cash Load Report** allows you to pull on-the-go reports showing cash loads, removals and withdrawals on your card for the specified time period.

Card Status

Select **Cash Load Report** to view the status of your card.

Manage Your EFS SmartFundsSM

Access SmartFundsSM at your convenience

Complete your Driver Profile to begin fund management

Getting Started with EFS SmartFundsSM

Selecting **EFS SmartFundsSM** will direct you to a sub-menu of functions that allows you to manage your personal funds via your mobile device.

You are immediately taken to your Driver Profile before accessing the SmartFundsSM Menu. You must create a profile before you can manage personal funds.

Creating your Driver Profile

Select **Driver Profile** to view and edit your profile. You'll need to complete this step if you are going to transfer funds (via ACH) from your SmartFundsSM personal funds to a personal bank account. Once complete, press "SmartFunds Menu" to return to the main sub-menu.

Managing Transfers through EFS SmartFundsSM

EFS SmartFundsSM makes creating and managing transfers easy. Through the SmartFundsSM sub-menu, you'll be able to:

Create and Verify New Transfer Accounts

This feature allows you to create a new external bank account if you wish to transfer your SmartFundsSM personal funds from your card to an external account. **IMPORTANT: Once an account has been created, it must be verified before it can be used to transfer funds.**

View and Delete Transfer Accounts

To view a list of all accounts created, select **List Transfer Accounts**. To delete an account, simply press **Delete Accounts** from the SmartFundsSM sub-menu.

Schedule/Cancel One-Time Transfers

To schedule a one-time account transfer to an external bank, select **One-Time Transfer** from the SmartFundsSM sub-menu. Funds are transferred once daily, so depending on the time the transfer is submitted, it can take 1-3 business days before funds appear in the external bank account. You may also cancel any transfer that has been submitted, but is still in "pending" status.

Schedule, Manage and Delete Recurring Transfers

To schedule a recurring account transfer to an external bank, select **Schedule Recurring Transfer**. Recurring transfers can be a set dollar amount, or a percentage of a loaded amount. Transfers occur immediately upon load. You can view all scheduled transfers by pressing **Show Scheduled Transfers**.

View Transfer History

Allows you to see a history of the last 10 transfers – including recurring and one-time – as well as the status (pending, etc.).
